What will I learn?

This 10-week course is designed to help students build on the skills developed in Guitar Beginners Part 1, 2 and 3, or an equivalent level of experience.

During the course you will:

- Develop confidence playing a wider range of chords, including barre chords
- Improve chord changes, rhythm and strumming techniques
- Learn fingerpicking patterns and accompaniment styles
- Explore scales, riffs and simple lead guitar techniques
- Develop improvisation and playing by ear skills
- Learn songs across different musical styles and genres
- Improve timing, dynamics and overall musicianship
- Build confidence playing with others in a group setting

The course aims to support both enjoyment and progression, helping students become more confident and versatile guitar players.

What will I need to take part?

Students should have completed Guitar Beginners Part 1, 2 and 3, or already have a similar level of playing ability.

You should be comfortable with, basic open chords, simple strumming patterns, changing chords in time and reading chord charts and basic tablature.

You will need to bring your own acoustic or electric guitar, a guitar pick (optional but recommended), a tuner and a notebook or device for taking notes and practice reminders. Regular practice between sessions will help you make the most progress throughout the course.

What to expect

Classes are friendly, relaxed and supportive, with opportunities to learn both individually and as part of a group.

Each session will typically include; warm-up exercises and technique practice, learning new chords, scales or playing techniques, guided song practice and ensemble playing, tutor demonstrations and individual support, opportunities to ask questions and develop confidence. Students will be encouraged to practise at home between sessions to reinforce learning and build skills week by week.

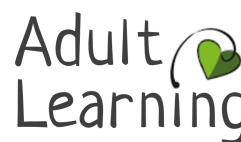

Where can it lead to?

After completing the Intermediate Guitar Course, students may progress onto:

- Advanced guitar courses
- Songwriting or music performance classes
- Playing in bands, ensembles, or informal jam sessions
- Developing specialist interests such as blues, rock, fingerstyle, or lead guitar
- Independent learning and more advanced repertoire

The course also supports personal enjoyment, confidence building, and creative expression through music.
